Methodology notes:

- Use data with caution given small numbers of available listings.
- Data is provided by AirDNA (www.airdna.co) and contains the Northwest Territories excluding Yellowknife.
- Total Available Listings: The count of Airbnb and HomeAway (VRBO) listings that were advertised for rent during the month or had a booked day in the month.
- Occupancy: Booked Listing Nights divided by Available Listing Nights (Entire Place).
- Average Daily Rate or ADR: The Average Daily Rate charged per booked entire place listing. ADR includes cleaning fees but not other Airbnb or HomeAway service fees or taxes.
- Revenue Per Available Room (revPAR): Entire Place ADR times Occupancy. Differing from the hotel industry, AirDNA considers the entire place listings as a "room".
- ADR and revPAR are reported by AirDNA in US dollars. These amounts have been converted to Canadian dollars using the monthly conversion rates published by the Bank of Canada.
- The data provided for May to August 2019 includes a number of questionable listings which may have been generated by a bot or faulty program which includes 74 questionable listings for May; 45 for June; 9 for July; and 7 for August.
