MINISTER'S MESSAGE

The Northwest Territories (NWT) is vibrant, strong, and diverse, full of people with the entrepreneurial spirit to make the North an even better place to live, work and visit. By investing in their efforts, the Government of the Northwest Territories increases community capacity, diversifies the economy, and creates job opportunities where they are most needed.

Grants and contributions are available to residents, businesses and community associations in every community across the NWT.

In 2014/2015, approximately \$21.5 million was provided, supporting a range of clients in economic development, business, trade, mineral and petroleum development, tourism, and the traditional economy.

This included our new NWT Film Rebate Program and the Mining Incentive Program. Both new programs make the NWT a more desirable location for their industries, and offset some of the increased costs of doing business in the territory. NWT businesses depend on one another, and even small investments have direct and indirect benefits across several sectors in a region and the territory.

The NWT's economy continues to be dominated by resource development. Our government is open for business with socially and environmentally responsible companies that will make sure the benefits accrue to Northerners. Responsible resource development is the key to a sustainable economic future with jobs and business opportunities for our communities. Together we will ensure our environment is protected and our communities can flourish.

Northern entrepreneurs are the key to building a balanced, diverse economy. By creating a competitive business environment in which NWT residents can invest and prosper, we create new opportunities and unlock our potential.

The Honourable David Ramsay
Minister of Industry, Tourism and Investment

INDUSTRY, TOURISM AND INVESTMENT GRANTS AND CONTRIBUTIONS PROGRAMS RESULTS REPORT 2014/2015

EXECUTIVE SUMMARY

PREFACE

The Mission Statement of the Department of Industry, Tourism and Investment ('ITI' or 'the Department') states: "In partnership with others, ITI will provide quality programs and services to promote and support Northwest Territories (NWT) economic prosperity and community self-reliance."

To this end, the Department offers financial grants and contributions to a wide range of clients and agencies in a variety of sectors. This Report provides a summary of grants and contributions provided throughout the 2014/2015 fiscal year.

SUMMARY OF RESULTS

Over the 2014/2015 fiscal year, ITI provided approximately \$21.5 million in grants and contributions to more than 1,500 individuals, entrepreneurs, groups and businesses across the NWT. Contribution assistance over the 2014/2015 period increased by almost \$1.5 million compared to the previous fiscal year.

Chart 1: Grants and Contributions over Five Years (\$ millions)

MAJOR GRANTS AND CONTRIBUTIONS

ITI provided \$8.839 million in funding for three major NWT-wide organizations that have a significant impact on the economic well-being of NWT residents and businesses. Those were: the NWT Business Development and Investment Corporation (BDIC), Northwest Territories Tourism (NWTT) and NWT Energy Corporation (NTEC).

Table 1: Contributions by Client exceeding \$1,000,000

	Client	Total Contribution
1	NWTT – Tourism Industry Contribution	\$3,736,000
2	BDIC – Operations	\$3,707,000
3	NTEC – NWT Energy Corporation	\$1,396,830

Other major contributions went towards community and regional economic support and development in the mineral and petroleum, energy, tourism, agriculture and traditional economy sectors. Popularity and participation led to \$3,662,410 in contributions as detailed in Table 2 below.

Table 2: Contributions by Client exceeding \$100,000

During the 2014/2015 fiscal year, ITI provided additional assistance in the form of grants, toward traditional economy activities to the tune of \$690,949 (\$27,787 for Disaster Compensation and \$663,162 toward the Genuine Mackenzie Valley Fur Program).

NEW ECONOMIC ENVIRONMENT

The NWT economy is affected by many factors, from local community issues to global disasters; nothing remains constant from year to year. The various grants and contributions programs provided by ITI are essential to keep pace with the changing economic times and demands. ITI's grants and contributions programs remain flexible to adapt to unpredictable economic changes.

Oil and gas, mining exploration, and development projects continued to dominate the NWT economy during the 2014/2015 fiscal year. The rich resources provided the NWT with the economic base needed for growth. In 2014, this sector represented approximately 29 percent of the NWT's economy. Many business sectors such as trades, construction, and the service sector, benefit directly and indirectly from the resource development activities throughout the NWT. These businesses also provide communities with needed northern employment and additional spin-off services and trade. The mineral and petroleum resource sectors will continue to play a significant role in the NWT economy for the foreseeable future.

Although mineral and petroleum resources continue to be a major driver for the NWT economy, prospects and production are expected to slow down over the next ten to 15 years if conditions remain the same. Globally, commodity prices are depressed, which is slowing mineral exploration not only in the NWT, but across Canada and globally.

Recruitment and retention of workers continues to be an issue in the NWT, as indicated by declining population numbers through the NWT Bureau of Statistics. Along with the difficulty in attracting young people to the north, the NWT is also aging; with 32 percent of the NWT population being 45 and over in 2014, as opposed to just 25 percent in 2004.

With the Devolution transfer of authority over land, water and resources to the GNWT from the federal government on April 1, 2014, decisions regarding onshore development of resources in the NWT will now be made in the NWT. This dynamic is expected to help improve the investment climate in the NWT, with greater participation of northerners in decision making.

High transportation costs and limited transportation infrastructure across the NWT's vast geographic area continue to drive up costs for all goods and services, particularly in small, isolated communities. However, the recent completion of the Dehcho Bridge and the ongoing construction of the Inuvik/Tuktoyaktuk highway are expected to alleviate some of those high costs.

Agriculture has experienced continued growth and interest across the NWT over the last few years. Community gardens have sprouted in all 33 NWT communities, and the successes of the commercial egg barn in Hay River, means that NWT eggs can now be purchased in several communities across the territory.

With the continuation of ITI support, these gardens have already become a new source for economic diversification and import replacement in the NWT.

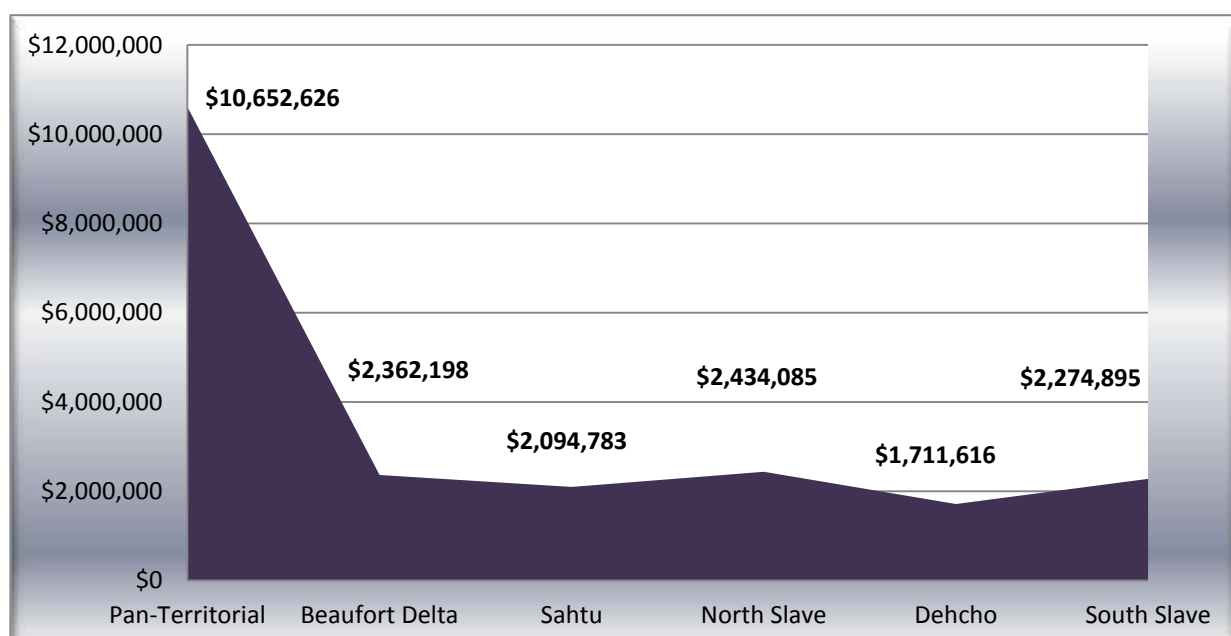

Tourism has and will continue to have a significant impact on the NWT economy. Of all the economic sectors in the NWT, tourism has the potential to present the greatest increased economic impact throughout the territory. Continued investments by ITI in marketing programs, tourism development programs, and training programs are all showing positive results. Aboriginal tourism and Aurora Borealis viewing, in addition to various programs focusing on tourism and parks infrastructure, skills development, and targeted research, will be critical in increasing the economic benefit that tourism will have on the NWT economy.

The release of the Economic Opportunities Strategy (EOS) and the Mineral Development Strategy (MDS) identified significant economic opportunities for NWT residents, businesses and communities, and will help to guide economic growth over the next decade. Developed with the help and input from major stakeholders, governments, businesses, industry, and non-government agencies, the implementation of these Strategies will help to develop important opportunities for the prosperity of the NWT.

REGIONAL RESULTS

Providing more than \$21.53 million in grants and contributions in the 2014/2015 fiscal year, Chart 2 shows the distribution of funding by region. Forty-nine percent of all grants and contributions funds were made to agencies operating throughout the NWT. This would include contributions made to NWT Tourism, BDIC and energy agencies. Otherwise, the distribution of funds across the NWT was fairly evenly distributed to all regions, as shown below.

Chart 2: Grants and Contributions by Region 2014/2015 (\$21,530,204)

SECTOR DISTRIBUTION

At \$5,446,558 the tourism sector utilized 25.2 percent of the more than \$21.53 million in grants and contributions for the 2014/2015 fiscal year. This includes funding for marketing, research and product development, training, Aboriginal tourism, and a host of other tourism-related support initiatives. Business and manufacturing support garnered a close second at 19.7 percent, predominantly through the Support for Entrepreneurs and Economic Development (SEED) Policy at \$4,149,323. See Chart 3 below for further breakdowns.

Chart 3: Grants and Contributions by Sector 2014/2015 (\$21,530,204)

GRANTS AND CONTRIBUTIONS BY COMMUNITY LEVEL

Chart 4: Grants and Contributions by Community Level

Grants and contributions are categorized into three distinct groups: Pan-Territorial, Level One or Level Two. Level One communities are Yellowknife, Hay River, Inuvik and Fort Smith. All other NWT communities are categorized as Level Two.

Projects are considered Pan-Territorial if they serve all or a number of communities across the NWT. A total of \$21,530,204 was provided for projects and programs for the 2014/2015 fiscal year.

COMMUNITY DETAIL

ITI's grants and contributions programs are available in all communities across the NWT. Contributions are allocated by community, region or as Pan-Territorial. Typically, the more populous the community, the more applications for funding ITI will receive. The Pan-Territorial listing either involves all communities or many communities.

HIGHLIGHTS FOR 2014/2015

ITI provided more than \$21.5 million in grants and contributions assistance to residents, entrepreneurs, groups and businesses during the 2014/2015 fiscal year; an increase in support over the previous fiscal year of almost \$1.5 million.

Support for helping to grow and develop the tourism industry across the NWT continues to be a major priority for the ITI in addressing the 17th Legislative Assembly goal of “*strengthening and diversifying the NWT economy*”.

Aurora tourism in particular is showing huge gains as visitors arriving to view the Aurora Borealis have increased in the last fiscal year by more than 38 percent. In discussions with Aurora tour operators, it is expected that the visitor numbers for Aurora Borealis will also show significant increases once the final numbers come in for the 2014/2015 fiscal year.

In fact, tourism numbers overall, have also increased. Between 2012/2013 and 2013/2014, visitor numbers across all NWT tourism sectors increased from 76,400 to 91,800 respectively.

With the development of the EOS and MDS in 2013; two of the 17th Legislative Assembly’s most significant economic strategies; ITI introduced a few new programs in the 2014/2015 fiscal year to help build and diversify the NWT economy; including:

- The **NWT Film Rebate Program** – a program that is geared to making the NWT a more desirable location for productions.
- The **Mining Incentive Program** – a program which provides funds to eligible prospectors and mining exploration companies to help bolster the NWT mining exploration industry and offset some of the financial risk associated with grassroots mineral exploration in the NWT.

Other initiatives will be introduced as the EOS and MDS implementation plans continue.

The agriculture sector continues to show great gains across the NWT, especially since the establishment of community gardens in all communities. As an example of the agricultural growth, the Northern Food Development Program; ITI provided \$417,521 in direct program funding and an additional \$50,000 towards domestic commercial fisheries marketing and promotions. Contributions were up by seven percent over the previous fiscal year, as interest continues to grow.

COMMUNITY TRANSFER INITIATIVES

Purpose

To provide funding for NWT communities to obtain the services of an Economic Development Officer (EDO), who is responsible to that community, through the provision of salary and operations funding to individual communities.

Eligibility

All NWT communities are eligible to request the transfer of ITI EDO positions where those positions have not already been transferred to the community.

Grant/Contribution

Contribution

Maximum Amount per Applicant

The maximum amount allocated per applicant varies by community depending on remoteness and whether the community is eligible for a half or full time position. The attached table provides a summary of transfers for the past three fiscal years.

Application Process

Operations funding, via the CFP, is based on a Contribution Agreement model.

Results Reporting

The CFP is a community-based economic development initiative delivered in each region and community by CFDCs. There are currently seven active CFDCs across the NWT operating independently of government as non-profit organizations. A volunteer Board of Directors oversees the CFP and is representative of the regions and communities that it serves. CFDCs operate in all 33 communities in the NWT.

Five of the seven CFDCs currently have a signed Contribution Agreement in place and receive operational contributions annually. In the 2014/2015 fiscal year, a total of \$985,980 in funding was allocated under the CFP to five of the seven CFDCs. Of the two non-funded CFDCs, one prefers to operate outside of the CFP requirements, while the other is undergoing an internal review and did not draw on the CFP in 2014/2015. Funding is set aside should they wish to participate; both are active in their respective regions. While CFDCs have the flexibility to set their own priorities; each offers a set of core services, including:

- Business loans/guarantees including term loans up to a maximum of \$200,000;
- Counselling and assistance for entrepreneurs beginning/expanding a business;
- Wage subsidies for those unemployed and wanting to start a new business; and
- Access to Canada Business NWT sites and business information services.

A separate and detailed report for the CFP is produced and tabled in the Legislative Assembly and posted on the ITI website on an annual basis.

INVESTMENT AND ECONOMIC ANALYSIS

SUPPORT FOR ENTREPRENEURS AND ECONOMIC DEVELOPMENT

Purpose

The Support for Entrepreneurs and Economic Development (SEED) Policy provides contributions toward starting out in business, improving capacity or skills, and helping small communities to expand their local economy.

Eligibility

All NWT businesses, business associations, band/community councils and individuals are eligible. Specific eligibilities are provided under the individual program elements of the Policy.

Grant/Contribution

Contribution

Maximum Amount Available Per Applicant

Up to \$25,000 to any one client in any fiscal year, depending on program category

Program Budget

Program funding was \$3,866,000 for the 2014/2015 fiscal year; significant demand led the program to be oversubscribed for this fiscal year. This funding is inclusive of \$125,000 set aside for projects in the arts and crafts sector, \$100,000 set aside for projects in the film sector, and \$50,000 set aside for the Prospector Grubstake Program.

Application Process

Application forms may be obtained from any local ITI office. A Contribution Agreement will be drawn up for a successful applicant. Specific terms and conditions vary according to the nature of the contribution and the project or activity being supported.

Results Reporting

In the 2014/2015 fiscal year, ITI provided \$4,149,323 in contributions to 472 individuals, businesses and organizations in the NWT; up from \$3,865,363 in 2013/2014 and \$4,131,250 in 2012/2013.

By SEED Policy Program:

Contributions made under the SEED Policy fall under five program categories:

- Entrepreneur Support
- Sector Support
- Community Economic Development
- Micro Business
- Business Intelligence and Networking

TABLE 1

Distribution of Funding by SEED Policy Program	Contributions (\$)	% Share

By Community Level:

Under the SEED Policy, communities are defined as either Level 1 or Level 2 communities, as follows:

SEED COMMUNITY LEVELS	
LEVEL 1	Fort Smith, Hay River, Inuvik, and Yellowknife
LEVEL 2	All Other Communities

- **Level 1:** The most developed communities in the NWT. These communities have well developed community business infrastructure and air/road transportation links.
- **Level 2:** Communities with less-developed business infrastructure and air/road transportation links.

Application Process

Program delivery is managed by the NWTFF, through a Memorandum of Understanding with ITI. Commercial fishers apply to the NWTFF for funds.

Results Reporting – 2014/2015

Total contributions of \$166,211 were provided in 2014/2015 through five Program schedules:

(1) Fish Harvesters Support Program

- a) Previous year's fish production records of all fishers and a list detailing the amount each fisher will get under the Program is required.
- b) Program aimed at small producers.
- c) Program allows NWT fishers to continue to fish and earn an income.

(2) Commercial Fish Harvesters Support Program

- a) Program aimed at larger producers.
- b) Amounts are based on previous year's fish production.
- c) Program allows NWT fishers to continue to fish and earn an income.

(3) Fish Harvesters Expansion Program:

Funding aimed at assisting fishers to defray a portion of costs for capital investments in their operations and to establish fish processing capabilities.

(4) Fish Harvesters New Entrants Support Program:

Program aims to provide support to defray a portion of the costs to enter into the fishery.

(5) Traditional/Commercial Harvesters Support Program:

Program aimed at supporting fishers conducting commercial fishing at Kakisa and Tathalina Lakes.

(6) Core Funding:

Funds assist in defraying a portion of the costs of administration for the NWTF.

COMMUNITY HARVESTERS ASSISTANCE PROGRAM

Purpose

Provides General Hunting Licence holders with fuel, supplies, and capital assistance, through Local Wildlife Committees (LWCs).

Eligibility

Recognized LWCs are eligible; in the absence of a recognized Local Wildlife Committee, the Minister of ITI may allocate assistance directly to holders of General Hunting Licences.

Grant/Contribution

Contribution

Maximum Amount Available Per Applicant

Payments are made to community and regional organizations that are delegated the responsibility to deliver the program to harvesters. The allocation is calculated based on the number of General Hunting Licence holders in the community and past participation levels.

Program Budget

\$1,074,000 for the 2014/2015 fiscal year

Program Manager

Investment and Economic Analysis Division

Policy Authority

Established under authority of the Minister of ITI

As of April 1, 2015, CHAP has been transferred to the Department of Environment and Natural Resources (ENR)

Application Process

Applications must include a statement of the disposition of previous funding and sufficient information to determine the basis for changed funding requirements. The local Regional Superintendent of ITI reviews the applications and makes recommendations to the Deputy Minister of ITI. Any appeals are submitted to the Minister of ITI.

Results Reporting

Total Program contributions for the CHAP totalled \$1,161,881 for the 2014/2015 fiscal year. CHAP was delivered in 31 communities by 33 organizations recognized by the Minister of ITI as representing the interests of harvesters.

CHAP has expanded considerably since its inception in 1985, assuming discontinued programs that used to offer support aimed at outpost camps, community hunts, gas subsidies and trapper assistance. The 2014/2015 CHAP dollars assisted hunters and trappers to defray the high costs associated with hunting, trapping and sustaining traditional lifestyles.

All communities in the NWT received benefits from CHAP either directly or through the regional organizations that represented their interests. Intended for the benefit of persons holding General Hunting Licences, the funding is targeted towards Aboriginal persons in the NWT over the age of 16 and/or land claim beneficiaries.

The 2014/2015 CHAP funding provided resources that allowed residents to pursue traditional activities that derived social/cultural and economic benefits. A key economic benefit arising from these activities was the replacement value of locally harvested goods when compared with costly imported products.

In 2014/2015, the LWCs Program allocations for the South Slave, Sahtu and Dehcho Regions only, were combined with CHAP funding. Therefore, total payments shown for these three regions include contributions for both programs.

Total contributions by Region for 2014/2015 are shown here:

Region	Payment
Dehcho	\$ 225,540
Beaufort Delta	266,426
North Slave	63,146
Sahtu	197,250
South Slave	254,315
Tłı̨chǫ	155,204
Total	\$1,161,881

TRADITIONAL ECONOMY

GENUINE MACKENZIE VALLEY FUR PROGRAM

Purpose

To provide NWT hunters and trappers with access to financial resources necessary to participate in the fur industry. There are three components to the Genuine Mackenzie Valley Fur (GMVF) Program:

a. Advance

The GMVF Advance Program provides guaranteed advances to trappers delivering prime fur for sale through the GMVF Program; based largely on anticipated market performance.

b. Prime Fur Bonus

If the trapper's fur is sold for the same value, or more than the advance, the trapper is entitled to receive a Prime Fur Bonus. The Prime Fur Bonus recognizes that the fur is in good condition and has been well handled by the trapper.

c. Fall Grubstake

A trapper must harvest 20 or more pelts, to a maximum of 200 pelts of any species in the GMVF Program to receive a payment (minimum \$100; maximum of \$1,000 per trapper).

The GMVF Program also pays for all commissions, shipping and handling fees for fur shipped to auction, and any shortfall between guaranteed prices and actual auction house-selling price.

Also funded under the GMVF Program is the Hide and Fur Procurement Program, which provides producers with market stability and product for craftspeople.

Eligibility

Individual holders of a valid NWT General Hunting or Trapping Licence and who are resident in the NWT are eligible.

Grant/Contribution

Grant

Maximum Amount Available Per Applicant

Funding levels are pre-determined by pelt

Program Budget

\$610,000 for the 2014/2015 fiscal year

Program Manager

Investment and Economic Analysis Division

Policy Authority

GMVF is administered jointly with ITI and ENR

Application Process

Entitlement is generated by individual pelts delivered, prices obtained, and the quantum of pelts delivered over the course of the year; advances are determined by the market; the Prime Fur Bonus is determined by the value of the pelt and the effort; and the Grubstake Program by the volume. Officers with ENR assess the pelts and determine suitability for advance. The auction sells the pelt. The Prime Fur Bonus is paid if eligibility is met and the Grubstake Program is subject to pre-determined eligibility being met. Appeals are very rare, but trappers may appeal to the Minister of ITI.

Results Reporting

GMVF supports payments to trappers for the 2014/2015 fiscal year totalled \$443,066. Approximately 650 trappers from across the NWT received support and benefits averaging \$682 each from GMVF in this fiscal year, compared to 701 trappers in the previous year. Auction houses provide funds based upon the sale of fur. GMVF funds provided to the trappers represents the proceeds from sales in excess of the advances paid. GMVF funding has allowed trappers to maintain a more traditional lifestyle throughout the trapping season without interruption.

GMVF Program Contributions for 2014/2015

Grubstake	Prime Fur Bonus	Shortfall	Total
\$118,835	\$332,127	\$212,200	\$663,162

GMVF funding also offsets a portion of the high cost of operations in the NWT. The GMVF is well subscribed; since 2002 it has also provided the impetus for younger persons to enter the industry and sustain a more traditional lifestyle. The chart below shows 2014/2015 typical market variation over the past ten years.

Support to Traditional Crafts

Support to traditional crafts includes the Hide and Fur Procurement Program. The current demand for processed fur pelts and hides exceeds the production. The Hide and Fur Procurement Program has achieved positive outcomes for the crafting industry and consequently a number of community based sewing groups have evolved out of that activity.

Interest and uptake continues to increase each year, with significant growth seen in 2014/2015, over the previous year. A comparative of estimated benefits shows an 80 percent overall increase between 2013/2014 and 2014/2015.

HUNTERS AND TRAPPERS DISASTER COMPENSATION PROGRAM

Purpose

To assist harvesters who sustain substantial financial losses due to unavoidable natural disasters, except for forest fires.

Eligibility

Residents of the NWT who:

- Hold a General Hunting Licence or are land claim beneficiaries.
- Are regularly and actively engaged in renewable resource harvesting activities.
- Earned at least 25 percent of gross income from renewable resource harvesting for the period of 12 months immediately prior to the incident.

Compensation will not be made for losses due to carelessness or poor judgment.

Grant/Contribution

Program Manager

Investment and Economic Analysis Division

Policy Authority

Established under authority of the Minister of ITI

As of April 1, 2015, this Hunters and Trappers Disaster Compensation Program (HTDC) has been transferred to ENR

Application Process

Applications are completed by the applicant, stating the date, circumstance and nature of the loss and are supported by an affidavit signed by the applicant and witnessed by a Commissioner of Oaths. The applicant needs to declare their income and offer evidence that 25 percent of their income is derived from harvesting of renewable resources.

The applicant completes a listing, with costs of goods required to replace damaged goods. Where the applicant has been deemed to be eligible and the circumstance, as well as the damage or loss, has been verified, the costs associated with replacing, or repairing the loss is approved to a maximum of \$4,500.

Applications are reviewed, complete with recommendations from the local wildlife authority, ITI, and ENR. The final approval rests with the Assistant Deputy Minister, Economic Development of ITI. The Minister of ITI reviews any appeals.

Results Reporting

HTDC payments are driven by events and circumstance that occur in nature, with the exception of forest fires. HTDC Program demand for 2014/2015 was high, as compared to 2013/2014 when no expenditures were incurred. The main driver of program costs was flooding along the Mackenzie River. Usage of the Program cannot be predicted from one year to the next, as the usage is determined by natural events.

Year	2008/09	2009/10	2010/11	2011/12	2012/13	2013/14	2014/15
Budget	\$15,000	\$15,000	\$15,000	\$15,000	\$15,000	\$15,000	15,000
Expenditures	\$18,000	0	\$4,500	\$79,833	\$3,300	\$0	27,787

Grant monies allow the eligible individuals to continue with traditional lifestyles, even when circumstances were significant enough to cause a disruption. HTDC provides protection to those whose need is most apparent in order to continue a livelihood which would have otherwise been disrupted by a natural disaster (other than a forest fire).

Program Manager

Investment and Economic Analysis Division

Policy Authority

Established under authority of the Minister of ITI

As of April 1, 2015 the LWC Program has been transferred to ENR

Application Process

A letter is sent to the Regional Superintendent of ITI requesting the annual funding. A report of the previous year's expenditures is required in support of the request.

All organizations are entitled to a base allocation. Additional funding to the base is population driven based upon the number of General Hunting Licences, fur trappers and the workplan tabled for the upcoming year.

Funding is approved in the region by the local Regional Superintendent of ITI, with appeals being submitted to the Minister of ITI.

Results Reporting

In the 2014/2015 fiscal year, the LWC Program contributions totalled \$138,200. Payments were made to the community/regional organizations representing harvesters in every community in the NWT.

Funding to LWCs and regional organizations enabled them to represent their interests and deliver CHAP funding on behalf of the harvesters they represent.

The funding to the LWCs provided operating funds that enabled these organizations to administer the programs, provide a presence in the community/region, and maintain an ongoing administrative function in support of harvesters.

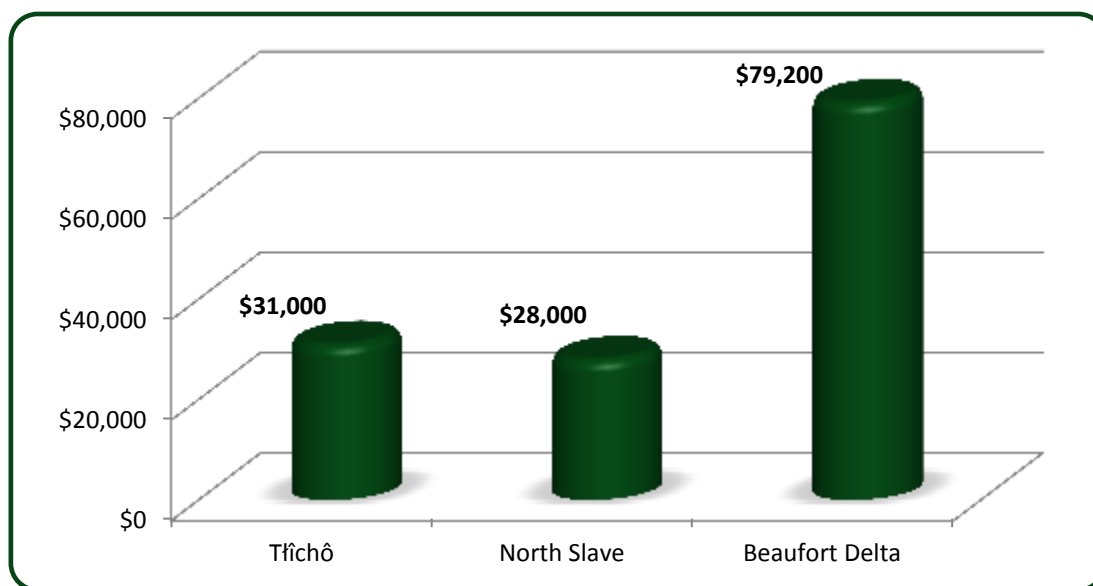

Every resident in the NWT who holds a General Hunting Licence or is a land claim beneficiary is eligible for benefits arising from the funding. LWC funding provided services and support to harvesters through the agencies situated in the various communities/regions.

ALLOCATIONS BY REGION:

Due to coding procedure changes during the 2014/2015 reporting year, some LWCs Program allocations for the South Slave, Sahtu and Dehcho Regions were coded under CHAP. Therefore total payments for these three regions include contributions for both programs.

Total contributions for the other three Regions are shown below:

REGION	AMOUNT
Beaufort Delta	\$ 79,200
Tłıchǫ	31,000
North Slave	28,000
Total	\$138,200

TRADITIONAL ECONOMY

NORTHERN FOOD DEVELOPMENT PROGRAM

Purpose

To remove barriers, create employment and facilitate the development of the NWT food production sector by providing support to producers of northern fish, meat and other food products for sale to consumers in the NWT by making investments that support:

- Community economic diversification,
- Northern food production and processing,
- Increasing local and regional agriculture and fishery participation and output,
- Encouraging/supporting local and niche food production and marketing initiatives, and
- Increasing availability of NWT foods to NWT consumers.

Eligibility

All NWT businesses, co-operatives, community-based organizations, and associations engaged in the production of food.

Grant/Contribution

Contribution

Maximum Amount Available Per Applicant

Contributions are aimed at individual entrepreneurs or businesses where the benefits accrue primarily to the client but meet the overall goal of the Northern Food Development Program (NFDP). The maximum contribution available per client is \$20,000.

Policy Authority

Financial Management Board (FMB) and the Legislative Assembly

As of April 1, 2015 this program has been transferred to ENR

Application Process

Proposals may be prepared jointly or separately for Dene and Métis harvesters and may be regional in scope or from individual community organizations. The Program must assist and promote the renewable resource economy in the community/district/region.

Organizations must match any contribution from the GNWT and must not be from other GNWT funds. The GNWT will not provide an interest free loan or guarantee a loan from a commercial institution. Matching funds must be deposited before the GNWT will provide its contribution. Funds may not be used for administrative purposes. Pre-determined funding levels were based on the number of General Hunting Licence holders in each community by Aboriginal descent. Applications are approved by the FMB.

Results Reporting

There were no contributions requested or approved in the 2014/2015 fiscal year. \$650,000 is remaining in the WHAP to be drawn down. Remaining organizations continue to look for the equity required to participate in the WHAP.

The 2014/2015 energy initiatives \$1,586,161 total contributions included:

Organization	Description	Funding
NTEC	2014 NWT Energy Charrette	35,000
	Water Monitoring	50,000
	Great Bear River Mini-hydro Feasibility Study	200,000
	LNG for Electrical Generation in the Dehcho	315,000

	LED Streetlights Conversion Project	100,000
NWTAC	2014 NWT Energy Charrette	9,331
	TOTAL	\$1,586,161

NTEC

NWT Energy Charrette

Funding used to engage with Aboriginal governments/development corporations for their representation at the 2014 NWT Energy Charrette, and to conduct relationship-building activities while drawing in potential project partners into the policy development process.

Water Monitoring

Funding used to continue the hydro assessment program in 2014/2015 with ongoing monitoring of the Kakisa River station, installed in 2013. Data will become part of a larger body of work on water resources and support decision making in the NWT.

Great Bear River Mini-hydro Feasibility Study

Funding used to continue work with the Délíne Land Corporation (DLC) to further examine the economic and technical feasibility for this project. DLC is investigating the feasibility of a hydro project on the Great Bear River that could eventually be expanded to provide electricity to communities in the Sahtu Region.

LNG for Electrical Generation in the Dehcho Region

Funding used to support the project's feasibility and design work to define foundations and containment, and included civil and mechanical work and the development of tender packages. Construction is to be completed in the 2015/2016 fiscal year.

Hydro Core Funding

Core funding to support NT Energy in work related to energy development in the NWT.

NTPC

NWT Electricity System Analysis

Funding used for follow-up work associated with the electricity review and to support the development of the NWT Energy Plan.

South Slave Region Electric Heat Feasibility Studies

Funding used to conduct two studies on ways to make use of the excess electrical energy available in the Taltson hydroelectric grid. Load flow and distribution studies into the conversion to electric heating systems in the South Slave Region were done to assess the feasibility of this proposed action.

LED Streetlights Conversion Project

Funding used to convert high pressure sodium streetlights in Délíne and Fort Good Hope to light emitting diode streetlights; using half the power.

NWTAC

NWT Energy Charrette

Funding used to establish a partnership with the NWTAC to stage the 2014 NWT Energy Charrette, and to facilitate the participation of communities and Aboriginal organizations in energy policy and planning discussions.

TOURISM AND PARKS

COMMUNITY TOURISM INFRASTRUCTURE CONTRIBUTION

Purpose

Funding for community governments and non-government organizations for new and innovative infrastructure projects. Projects must support tourism in communities and should promote nearby parks and natural attractions.

Eligibility

1. Capital projects that increase tourism in communities. Capital costs are defined as one-time project costs;
2. Communications infrastructure projects that enhance current tourism products or attractions;
3. Development of innovative information technology tourism products or services; and
4. Planning studies or site development for future capital projects if applicant can demonstrate that future resources are available for project completion.

Policy Authority

Established under authority of the Minister of ITI

Application Process

Application Form and Guidelines for the Community Tourism Infrastructure Contribution (CTIC) Program can be found on the ITI website under Programs and Services and are available at any ITI Regional Office or ITI Headquarters Office in Yellowknife.

Applications must be received by certain predetermined dates each year and funding will be distributed to those projects which provide the greatest benefit to the NWT, and meet the CTIC, until funding limits are reached. Completed applications are delivered to ITI Regional Offices or ITI Headquarters Office in Yellowknife, who administer and make recommendations for approval.

To be a successful applicant, the following criteria had to be met:

- Projects must align with the community tourism plan where applicable. If there is no community tourism plan in place, the applicant must demonstrate that they have support from the community; and
- The project must provide positive tourism benefits to the community and surrounding area.

Successful proposals must also demonstrate:

- The organization operates on a non-profit basis and works to benefit the tourism industry and local economy of the community;
- The project will increase the attraction of the community to visitors;
- The project enhances partnerships between non-government community groups and the private sector tourism industry;
- There are resources available for any operations and maintenance costs related to the project; and
- If it is a multi-year project, future resources can be leveraged from other sources.

Results Reporting

The CTIC Program funded nine successful applications in 2014/2015, resulting in a total distribution of \$225,000. The CTIC has the following goals:

- Increase the attractiveness of NWT communities to visitors;
- Encourage partnerships between non-government organizations and private industry in the tourism sector;
- Increase the use of communications technology in tourism products;
- Create opportunities for the local economy and residents through the enhancement of tourism operations at the community level.

SPORT HUNT OUTFITTER MARKETING SUPPORT

Purpose

To support initiatives by the barren-ground caribou and polar bear outfitters to diversify their markets, develop new products, and maintain existing facilities, and in some cases, wind down their businesses.

Eligibility

For the 2014/2015 fiscal year, Sport Hunt Outfitter Marketing Support Program (SHOMSP) was only open to outfitters/operators in the Beaufort Delta and North Slave Regions. Beaufort Delta Region outfitters must have conducted a Polar Bear Hunt in the 2008/2009 fiscal year; and the North Slave Region outfitters; eligibility is limited to outfitters who conducted caribou hunts in the 2008/2009 fiscal year.

Grant/Contribution

Contribution

Maximum Amount Available Per Applicant

\$18,500 for 2014/2015

Program Budget

\$200,000 for the 2014/2015 fiscal year

Program Manager

Tourism and Parks Division and local Regional Superintendents of the Beaufort Delta and North Slave Regions

Policy Authority

Established under authority of the Minister of ITI

Application Process

Applicants must supply a detailed project description, project budget and cost quotes and any other information deemed relevant to the Regional Superintendent (there is no equity requirement for SHOMSP). Applicants are not eligible for funding if ITI has paid out claims made by their clients under the Tourist Deposit Assurance Program.

Results Reporting

A total of \$200,000 was made available for the SHOMSP for the 2014/2015 fiscal year. Assistance was provided to sport hunt outfitters facing financial hardship in the face of the non-resident hunting ban of barren-ground caribou and the ban on importation of polar bear hides into the United States (US).

Funding is provided to assist outfitters in developing new products, penetrate new markets for existing products, and to assist in the care and maintenance of existing camp facilities until such time as caribou tags for non-resident hunters have been reinstated, or the business has made a transition to other products.

Of the \$200,000 budgeted for 2014/2015, ITI provided contributions for six projects in the North Slave Region totalling \$99,584. No projects were proposed for the Beaufort Delta Region in 2014/2015.

Applicant	Funding	Purpose
True North Safaris Ltd.	17,000	Pay outstanding debts
Arctic Safaris	15,584	Air charter, camp maintenance, insurance
Enodah Wilderness Travel	17,000	Marketing and purchase of equipment
Rabesca Resources Ltd.	17,000	Camp care and maintenance and equipment repairs
Bathurst Inlet Developments Ltd.	16,000	Purchase trailer and tent
The J Group Ltd.	17,000	Lodge maintenance, air charters, insurance, supplies, propane, groceries
Grand Total	\$99,584	

SHOMSP has shown a steady decline in need and uptake over the past four years as the graph below demonstrates. SHOMSP has been discontinued beyond 2014/2015.

TOURISM INDUSTRY DESTINATION MARKETING ORGANIZATION

Purpose

For NWTT to deliver the Tourism Industry Destination Marketing (TIDM) Program on behalf of the GNWT and finance the costs incurred in the delivery of services to the NWT tourism industry through the NWTT Business and Marketing Plan.

Eligibility

This contribution is exclusively directed to NWTT, the association acting as the Destination Marketing Organization (DMO) for the NWT.

Grant/Contribution

Contribution Agreement

Maximum Amount Available Per Applicant

NWTT is the official organization that represents the majority of tourism industry members in the NWT and delivers the TIDM Program on behalf of the GNWT.

Program Budget

The core contribution for the 2014/2015 fiscal year was \$3,336,000, which included \$1.2 million of annual core funding, and an additional \$400,000 provided as a contribution towards advertisements and commercial airspace.

Program Manager

Tourism and Parks Division

Policy Authority

Established under authority of the Minister of ITI

Application Process

This is an annual contribution approved through the GNWT business planning process.

Results Reporting

The following is a summary of the marketing activities that NWTT has undertaken during the 2014/2015 fiscal year:

Brand Essentials

- **NWT Guides** - Explorers' Guide, Sportsmen's Guide, Meeting and Conference Planner.
- **News Letters** - E-newsletters targeting approximately 1,900 consumers in Canada and the US.
- **Integrated Marketing Campaign (IMC)** - Consists of print, web, social media and promotional advertising. Advertising campaigns primarily focus on building destination awareness and encouraging people to travel to the NWT. Historically the IMCs carried out by NWTT have featured all regions of the NWT and highlighted key tourism sectors (sport fishing, Aurora, outdoor adventure and touring). A few niche campaigns are also conducted each year.
 - A nine-week campaign in the Globe and Mail featured aurora, festivals and events, fishing, paddling and culture.
 - NWTT worked in partnership with the town of Inuvik to market tourism packages for the Sunrise Festival through a television, radio and social media campaign. A total of 16 packages were sold for the festival.
- **Sector Marketing** - In response to a decline in visitor numbers in the fishing sector, combined with feedback from NWT sport fishing operators, NWTT dedicated a specific budget to marketing sport fishing product, and an advertising plan was developed for sport fishing.
- **Social Media** - As of March 31, 2015, NWTT has a total of 40,244 followers on Facebook, an increase of 1,942 from December 31. During the same period NWTT Twitter accounts grew from 8,435 followers to 8,780 followers and Instagram users grew from 1,812 followers to 2,023.
- **Consumer Show Program** - NWTT participated in seven consumer shows during the 2014/2015 fiscal year. Cooperative booth space was made available to NWT tourism operators for the Denver and Sacramento International Sportsmen's Expositions, the Calgary, Vancouver, Edmonton and Toronto Outdoor Shows.
- **Regional Marketing** - As part of the *Tourism 2015* section of the marketing plan a budget of \$250,000 has been set aside for regional marketing initiatives. Each of the five regions has been allocated a budget of \$50,000 that is dedicated toward specific regional marketing activities. All projects are driven by the region, but remain consistent with the GNWT Spectacular Brand.
- **Special Marketing Initiatives** - \$100,000 was set aside for special marketing initiatives; directed by ITI for projects that are mutually agreeable by ITI and NWTT. For 2014/2015, funds were allocated to the GNWT's Japan and China Trade Mission and NWT Days in Ottawa.
- **Research** - NWTT, ITI and Environics developed and implemented a comprehensive research program on the sport fishing sector during the 2014/2015 fiscal year to better understand what changes to marketing would be required in order to turn around the downward trend in visitors from that sector.
- **Media and Trade Familiarization Tours (FAMs)** - NWTT hosted three media and one trade FAM, focusing on the NWT Aurora and winter products.

CORE MARKETING PROGRAM - EUROPE

Marketing activities for Europe include advertising and promotion, trade promotions, media promotions and project coordination. The main focus for Europe is Germany, with some additional funds targeted towards Switzerland, including:

- **Print Advertising** - NWTT placed a half page ad in Canada 360 magazine (a dedicated magazine on Canada with a readership of 6,500 readers), which included a lengthy editorial.
- **Web Advertising** - During the 2014/2015 fiscal year, the German-language website received over 72,000 unique visitors.
- **Social Media** - The NWTT German-language Facebook page, which is managed by NWTT's German Sales Agent, currently has over 20,000 followers.
- **Cooperative Marketing Initiatives** - Throughout the year NWTT purchased a series of ads in Canada 360, which were complemented by editorials on the territory. NWTT's Call Centre in Germany has received over 1,300 calls this fiscal year.

CORE MARKETING PROGRAM - JAPAN

The Asia Pacific Marketing Plan included advertising and promotion, trade promotions, media promotions and project coordination, including:

- **Advertising and Promotion** - NWTT advertised through a Team Canada campaign as well as on the Aurora Kingdom website – both were Canadian Tourism Commission (CTC) initiatives. Over 70 percent of the aurora packages featured on the Aurora Kingdom website are from the NWT.
- **Trade Shows** - NWTT participated in Focus Japan; a new CTC event that took place in Tokyo from October 14 – 17, 2014.
- **Media FAMs** - NWTT hosted Japanese three-dimensional filmmaker, Ikuo Nakamura, to capture footage of the fall season.
- **Trade FAMs** - The NWTT General Sales Agent for Japan visited the NWT for four days of product orientation.

CORE MARKETING PROGRAM - CHINA

Made possible by the increased marketing dollars from the GNWT, NWTT set aside funds to help develop the Chinese tourist market. Marketing activities for China include advertising and promotion, Trade FAMs and Media FAMs; including:

- **Advertising and Promotion** - NWTT worked with the Chinese company Dragontrail, to build a NWTT Chinese language website and to maintain a Weibo account (Chinese version of Facebook), and a Chinese-language webpage on the main NWTT website.
- NWT Aurora was featured on a new program called CTC-TV for a week in October 2014. Over 750,000 people viewed the first NWT Aurora video.
- **Trade Shows** - Showcase Canada-Asia 2014 took place in Shenyang, China from October 20 - 24. It included Canadian sellers and buyers from China, Korea, Taiwan, Singapore, Malaysia, Thailand, Indonesia and the Philippines. Over 100 buyers from these markets met with Canadian sellers.
- **Trade FAMs** - NWTT hosted Trade in Motion on a FAM tour in March 2015 with an inbound tour operator located in Ontario that works with the Chinese market.

OTHER INTERNATIONAL MARKETS

NWTT was able to expand marketing efforts into a number of new markets identified in the marketing plan that have the potential for growth. These markets include South Korea, Australia, France and the United Kingdom. NWTT utilized Canadian Northern Economic Development Agency funding for a number of marketing related initiatives; including:

- **Websites** - NWTT has been working on the development of Chinese, Korean, and French-language websites.
- **Media FAMs** - NWTT hosted two media FAMs from Korea and one from France. The Korean FAMs focused on the Aurora market, while the FAM tour from France featured the events associated with the Long John Jamboree.
- **Advertising and Promotion** - NWTT advertised in the US, Korea and Australia. Promotions in the US focused on the NWT sport fishing sector, the Korean market focused on the Aurora, and the Australian focused on general awareness.

Application Process

Application Form and Guidelines for the TTF Program can be found on the ITI website and are available at any ITI Regional Office or the ITI Headquarters Office in Yellowknife. Applications will be accepted at any time, but must be submitted prior to the training start date. Applications will be assessed monthly. Completed applications are delivered to ITI Regional Offices or ITI Headquarters Office in Yellowknife, who make recommendations for approval.

A business or group who applies for funding must demonstrate that the training falls within the eligibility requirements and that the funding is intended to train more than one staff by a certified instructor. Funding for individuals is intended to support training of single individuals in a set of skills.

Results Reporting

The TTF Program provided additional support for the NWT tourism industry and its operators, and to help them provide services from well-trained individuals in their operations.

The following is the priority list for funding consideration:

- Valid Tourism Operator Licence holders;
- Non-government Visitor Information Centre;
- Accommodations Sector; and
- Individuals, businesses, collectives, not-for-profit tourism associations or organizations engaged in the tourism sector.

For the 2014/2015 fiscal year, 12 applications were approved, for a total contribution assistance of \$36,657. Summary table of the Tourism Training Contributions:

PETROLEUM RESOURCES

ABORIGINAL CAPACITY BUILDING

Purpose

To provide Aboriginal organizations in regions most impacted by petroleum and mineral exploration, production and transportation activity, with assistance for capacity-building. The Aboriginal Capacity Building (ACB) program is designed to work in partnership with other community and sector-specific oil, gas and mineral programs to build a stable economic base at the regional and community level.

Eligibility

Applicants must be members of an Aboriginal organization located within the Inuvialuit and Gwich'in Settlement Areas, or Sahtu, South Slave and Dehcho Regions.

Grant/Contribution

Contribution

Maximum Amount Available Per Applicant

\$90,000 for each claimant group or region, with the opportunity to apply for additional funding as available

Program Budget

\$560,000 for the 2014/2015 fiscal year

Program Manager

Petroleum Resources Division and Regional Superintendents

Policy Authority

Established under the authority of the Minister of ITI

Application Process

Aboriginal organization applicants provide an annual work-plan and budget, detailing proposed activities, schedules and a source and application of all project costs. \$90,000 is available for each claimant group in the Inuvialuit and Gwich'in Settlement areas. The Inuvialuit Regional Corporation (IRC) and Gwich'in Tribal Council (GTC) receive the entire allocation, then determine and administer the funds in their respective settlement areas. In the Sahtu Region, ITI's Regional Superintendent determines the annual allocation of \$75,000 based on previous approvals as well as new applications received throughout the course of the year.

The \$90,000 annual allocation in the Dehcho and South Slave Regions is shared, with the ITI Regional Superintendents of the two Regions determining the maximum amount for each recipient based on the number and type of applications received and previous approvals.

Regional Petroleum Advisors in the Sahtu, Dehcho and South Slave Regions also help determine the funding priorities in their respective regions. The Deputy Minister will rule on appeals made in all funding allocation decisions. Any remaining balance is made available on an individual application basis and reviewed on a case-by-case basis.

Results Reporting

A total of 27 contributions were made in the 2014/2015 fiscal year, including contributions made to the Mackenzie Valley Aboriginal Pipeline Group; total contributions amounted to \$599,986 as follows:

PETROLEUM RESOURCES

SUPPORT TO THE ABORIGINAL PIPELINE GROUP

Purpose

Support the Aboriginal Pipeline Group (APG) in obtaining a one-third ownership interest in the Mackenzie Gas Project (MGP).

Eligibility

Assistance is limited exclusively to the APG, the legal entity established to hold the NWT Aboriginal peoples' ownership interest in the Mackenzie Valley Natural Gas Pipeline.

Grant/Contribution

Contribution

Program Budget

\$100,000 for the 2014/2015 fiscal year

Program Manager

Petroleum Resources Division

Policy Authority

Established under the authority of the Minister of ITI

Application Process

The GNWT, Government of Canada and TransCanada Pipelines Limited continues to jointly fund the administration costs of the APG. The APG Board of Directors submits an application each year, which includes audited financial statements and an annual report, highlighting activities and results of the previous year, and work plan and budget for the upcoming year.

Results Reporting

With the reduction in activity associated with the Mackenzie Gas Project (MPG), contributions to the APG were reduced to \$100,000 for 2014/2015. If the project ramps up or a Certificate of Public Convenience and Necessity (CPCN) extension is granted, there will be consideration for re-establishing the funding as previously budgeted.

The IRC, GTCand Sahtu Secretariat Inc, are members of the APG partnership. The APG continues to hold an ownership interest in the MGP. The MGP received a CPCN from the National Energy Board (NEB) in December 2010. The CPCN is set to expire on December 31, 2015. The MGP Proponents have indicated that due to the gas markets and low gas prices, construction of the MGP is not anticipated in the near future. On August 20, 2015, Imperial Oil submitted a letter to the NEB on behalf of MGP Proponents, requesting that the NEB extend the CPCN for the MGP for seven additional years.

Status:

- APG continues to represent its Aboriginal shareholders in the MGP decision making and participate in the Management Committee of the MGP Joint Venture.
- APG continues to stay active in the communities, participate in the Inuvik Petroleum Show (or its future rendition) and participate in all discussions with the Government of Canada on a fiscal framework for the MGP.
- The natural gas markets are evolving and APG continually monitors the North American demand and supply picture, assessing the impacts on MGP economics and looking for opportunities to resume project activities. Recent Liquefied Natural Gas (LNG) export developments on the BC west coast have the potential to raise supply needs in North America. Imperial/ExxonMobil, a partner in the MGP, is one of the proposed LNG developments and APG is watching how this project develops and the possible role of the MGP.
- APG is also monitoring and participating in discussions with industry and government on additional natural gas volumes to support the MGP (i.e. Shale gas and oil plays in the Sahtu Region) or other alternate pipeline projects (i.e. Northern oil pipelines).

MINERAL RESOURCES

MINING INCENTIVE PROGRAM

Purpose

To provide funding to prospectors and exploration companies working in the NWT. The Mining Incentive Program (MIP) is intended to stimulate and sustain mineral exploration activities throughout the NWT and reduce the risk associated with grassroots mineral exploration. Exploration is vital to find new discoveries that result in producing mines that provide economic benefits to NWT residents.

Eligibility

Applicants must be individual prospectors or exploration companies, licensed to operate in the NWT, who propose new exploration projects or are already carrying out NWT mineral exploration work.

Grant/Contribution

Contribution

Maximum Amount Available Per Applicant

Prospectors may apply for up to \$15,000 in funding. Mineral exploration companies may apply for up to \$100,000 in funding (up to 50 percent of eligible expenses).

Program Budget

\$400,000 for the 2014/2015 fiscal year

Program Manager

Northwest Territories Geological Survey

Policy Authority

Established under the authority of the Minister of ITI

Application Process

Application forms and guidelines for the MIP can be found on the ITI website and are available at any ITI Regional Office or through the Northwest Territories Geological Survey (NTGS) in Yellowknife. Applications will be accepted at any time and will be assessed monthly. Completed applications are delivered to the NTGS Office in Yellowknife, which makes recommendations for approval.

Results Reporting

In its inaugural year, MIP was highly successful and a total of \$374,967 in assistance was provided to eight recipients: six corporate exploration projects and two prospectors.

Funded exploration programs are largely on track with only one company reporting a field work delay due to forest fires. All MIP applicants have submitted their interim and final reports.

An intradepartmental committee is reviewing interim results and feedback from the 2014/15 fiscal year. MIP funding has been credited in recent exploration announcements made by DEMCo and TerraX Minerals.

The MIP is one of ITI's major initiatives under the Mineral Development Strategy (MDS) and Implementation Plan. Launched in June 2014, the MIP provides funds to eligible prospectors and mining exploration companies that are already engaged in mining exploration projects or proposing new projects in the NWT. The MIP aims to offset some of the financial risk associated with grassroots mineral exploration in the NWT.

The MIP is modelled after successful incentive programs offered by other Canadian jurisdictions, including Yukon, which experienced strong mineral exploration growth following its devolution agreement.
