

NWT Northern Food Development Program

Scoring Summary

CATEGORY		CRITERIA			SCORE
		0-1 points	2-3 points	4-5 points	
Alignment with NFDP Objectives	1. Growing the northern food sectors	The proposed activity demonstrates a potential to marginally grow the northern food sectors	The proposed activity demonstrates a potential to adequately grow the northern food sectors	The proposed activity demonstrates a potential to clearly grow the northern food sectors	/5
	2. Increasing production, processing, sales, and marketing	The proposed activity demonstrates a marginal increase in production, processing, sales and/or marketing	The proposed activity demonstrates an adequate increase in production, processing, sales and/or marketing	The proposed activity demonstrates a clear increase in production, processing, sales and/or marketing	/5
	3. Increasing availability of northern foods to northern consumers	The proposed activity would provide a marginal increase to the availability of northern foods to northern consumers	The proposed activity would provide an adequate increase to the availability of northern foods to northern consumers	The proposed activity would provide a clear increase to the availability of northern foods to northern consumers	/5
Past Performance		Past NFDP projects were not fully completed, or the quality of the work/reporting were unacceptable, i.e., late reporting; or substantial unclear, missing, or inaccurate information/ data/receipts/or invoices	Past NFDP projects were satisfactorily completed with standard reporting practices	Past NFDP projects produced results that directly contributed to NFDP objectives and with clear, accurate, and timely reporting	/5
Project impact		The proposed activity demonstrates no or limited increase in food production or processing, and/or revenue projected as a result of the investment	The proposed activity demonstrates a moderate increase in food production or processing, and/or revenue projected as a result of the investment	The proposed activity demonstrates a significant increase in food production or processing, and/or revenue projected as a result of the investment	/5
Quality of application and project feasibility		<ul style="list-style-type: none"> No clear project description No clear work plan Background information is unclear or missing and there are no or few supporting materials Unrealistic or challenging timelines 	<ul style="list-style-type: none"> Some project description Partial or incomplete work plan Some background information is provided with some supporting materials Tight timelines 	<ul style="list-style-type: none"> Clear project description Clear work plan Sufficient background information provided with sufficient supporting materials Realistic timelines 	/5
